**DETAILED ACTION**

1. This action is in response to papers filed on June 24, 2005.
2. Claims 1, 8, 13, 14, 16, 20, 25, 28 and 33 have been amended.
3. Claims 1-34 are pending.
4. Claims 1-34 are rejected.

***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-34 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent 5,790,429 Baker et al. Mailing Coding System.
7. As to claims 1, 8, 16, 20, 28 and 33 Baker teaches
  - unique identifiers and electronically associating a mailing address enough to route the mail. (C. 2 I.31-36).
  - putting a barcode on the parcel(C. 2 I. 52-54).
  - Routing the parcel(C. 4 I. 30-32).
8. As to claims 2, 14 and 25 and electronically editing see C. 8 I. 58-61
9. As to claims 3 and 26 Baker teaches routing the parcel to recipient see C. 9 I. 66-67.

Art Unit: 3629

10. As to claims 4-5, 9-10, 17-18, 23-24 and 32 Baker teaches barcode see C. 4 I. 31-32.

11. As to claims 6, 13 and 31 Baker teaches sending the parcel to receive the barcode before routing. Although Baker does not explicitly state the barcode before it gets routed the examiner states it is inherent that if the barcode is going to be used for routing it must be complete and in place before the package is routed. The barcode is taking the place of the address, is it not required to have an address on an envelope to deliver it correctly.

12. As to claims 7, 15, 19, 27, 29 and 34 Baker teaches the machine identifying there is not enough of the address present to complete the barcode and requesting more information(C. 8 I. 58-60)

13. As to claims 11, 21 and 30 Baker teaches the address as a physical address(C. 8 I. 42-45). The examiner makes note that although the reference teaches a physical address this aspect is inherent in the mailing industry. In order for the mail to be delivered it needs an actual location for which to be delivered to.

14. As to claims 12 and 22 Baker teaches the machine as a postal machine(C. 3 I. 64-67).

### ***Response to Arguments***

15. Applicant's arguments with respect to claims 1-34 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 3629

16. Rejections regarding 35 USC 101 and 35 USC 112 2<sup>nd</sup> paragraph made in the previous office action have been withdrawn.

17. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Traci L. Smith whose telephone number is 572-272-6809. The examiner can normally be reached on Monday-Thursday 6:00 am-4:30 pm.
